

## A MESSAGE FROM THE PRESIDENT/CEO AND THE CHAIRPERSON, BOARD OF DIRECTORS

Healthcare continues to be one of the most challenging industries in our modern world. If it is not too many patients, it is too few patients. If it is not more regulations, it is regulations that are not clear. Then there is always the matter of reimbursement.

Such is the world that the VNAIC lives in. Always a challenge, always something new, and always rewarding to make a difference in the lives of over 20,000 home health and hospice patients each year.

The VNAIC operates within a 5 year strategic plan that keeps us focused on our mission, visions, and values.

I believe that holding true to our values is the first and most important step in providing the best care possible to our patients. These values also promote a work environment that supports team- work and employee satisfaction.

The values of the VNAIC:

- V Value our employees
- N Needs of our patients come first
- A Always ethical
- I Incredible quality care
- C Customer service is superb

Our values make us strong. We believe in them and strive to make them a reality every day.

Thank you for your support and care of the Visiting Nurse Association of the Inland Counties.

**Lynn Campbell**  
President/CEO  
January 2008

The VNAIC Board and staff worked hard in 2007 to continue our commitment to the Five Year Strategic Plan. I am happy to report that, according to our Patient Satisfaction surveys for both home health and hospice, we are meeting our planned goals. It is no surprise to learn that we exceed the expectations of our patients and their families.

Our stated Mission is working well; our vision and values affect our daily work life in a positive manner.

Below are some of the vision statements by which we live and work:

- VNAIC will be the most comprehensive regional home health agency and hospice provider in the scope of service, geography, and volume.
- VNAIC will remain a key community service provider.
- VNAIC will recruit and retain qualified and satisfied employees.
- VNAIC will set the standards for quality patient care in community health.
- VNAIC sets its goals based on the long-range Strategic Plan.
- VNAIC will use current technologies to assure efficiency and productivity.

These visions not only drive the present, but are also the future of the VNAIC. Thank you for joining us in the celebration of our 77th year of operation.

**Ruth Harriss**  
Chairperson, Board of Directors  
January 2008

# VNAHC

programs

---

## MATERNAL INFANT PROGRAM

This program provides new mothers with information to make childbirth a rewarding and healthy time for child, mother and family. Through home visits, problem areas are identified and, as a result, potential problems are greatly reduced.

## HOME HEALTH PROGRAM

We provide care for the patient in the comfort and privacy of their home, a place where most people prefer to be during recovery or an extended illness. Our clinical team works closely with the patient's attending physician to ensure an effective plan of care.

## INFUSION/VASCULAR ACCESS

Our highly trained intravenous specialists provide IV placement and infusion therapy in the home as well as in long term care facilities and other patient settings. IV therapy at home reduces the cost and inconvenience of a prolonged hospital stay.

## HOSPICE PROGRAM

Hospice is a special program of care for terminally ill patients and their families. Our hospice team works with the patient's physician and practices a palliative care approach to providing physical, emotional, and spiritual support to patients and their loved ones in their home or care facility.

## WOUND, OSTOMY & CONTINENCE CARE

Specially trained and certified Wound, Ostomy and Continence Nurses provide expert care to persons with ostomies, wounds, fistulas, drains, pressure sores, and incontinence. WOCN nurses work closely with the patient's physicians and provide services in home, outpatient, and inpatient settings.

## ORTHOPEDIC REHABILITATION

This program is for patients who have undergone a total hip or knee replacement or have sustained trauma to bones or joints. It focuses on helping patients improve their strength, mobility, and endurance in order to regain their independence and return to their prior level of activity.

## MOURNING STAR CENTER

The Mourning Star Center of the VNAIC is dedicated to providing gentle and loving support to children who are grieving the death of a loved one. The program assists the child in identifying the feelings they are coping with and to provide a safe and healthy environment for healing.

## VOLUNTEER PROGRAM

Volunteers provide an invaluable service to our patients and our clinical teams. They work directly with the patient and family, providing respite care, giving companionship, doing light housework or preparing meals. They also assist in a variety of ways with activities in the office and the community.

## BEREAVEMENT PROGRAM

Bereavement Professionals offer grief support to families and loved ones after a death. The program includes education, home visits, telephone calls and a variety of support groups. Bereavement counselors provide short term individual support and referral to community resources.

## MENTAL HEALTH PROGRAM

Mental health nurses provide care to individuals with psychiatric and emotional problems. The mental health patient can receive specialized nursing services while continuing his/her regular mental health care. Patients with mental health issues can receive concurrent mental health and medical nursing services.

## TELEHEALTH/DISEASE MANAGEMENT

This program allows the patient to interact with a nurse through a system that features live two-way video/audio. The computerized system also monitors vital signs such as blood pressure, oxygenation levels, heart and lung sounds, and weight.

John L. Treadway

# Loving Care Awards

This is the 22nd annual presentation of the Loving Care Awards. It is our way of recognizing some very special people for the extraordinary loving care they have given a family member, friend, or their community. The Board of Directors named these awards the John L. Treadway Loving Care Awards in memory of Mr. Treadway's many years of service to the Visiting Nurse Association of the Inland Counties and his enjoyment in presenting them each year until his passing.
